Create!

Build with the Open PHACTS Discovery Platform. The platform provides a convenient API to query across multiple pharmacology datasets.

You'll find complete documentation for the API in our [documentation](#) section. You'll need an API key to use the platform. [Sign-up](#) is free. For more information on the project, check out www.openphacts.org.

Sustaining Impact

- ✦ “Software is free like puppies are free - they both need money for maintenance”
- ✦ ...and more resource for future development

The Open PHACTS Foundation

OPF is a not-for-profit membership organisation, supporting the Open PHACTS Discovery Platform:

A sustainable, open, vibrant and interoperable information infrastructure for applied life science research and development.

To reduce the barriers to drug discovery in industry, academia and for small businesses, the **Open PHACTS Discovery Platform** provides tools and services to interact with multiple integrated and publicly available data sources. To integrate this data, extensive cross-referencing of scientific concepts is needed across all databases.

The Open PHACTS Foundation ensures the sustainability of the **Open PHACTS Discovery Platform** infrastructure and acts as a hub for relevant scientific research and development.

Powering precompetitive collaborative research

- The Open PHACTS Foundation is a UK-based member-owned non-profit company founded to sustain and develop the Open PHACTS infrastructure
- OPF operations are distributed across funded partners to maintain and further develop public:private partnership
- A sought-after partner for Horizon 2020 projects
- Bring industry perspective to new academic partners
- Leverage the heritage of open data services and public:private partnership

OPF is a funded partners in this project, and 5 other pending submissions
