

# Licensing Concerns within Open PHACTS

Elaborated by the Licensing Committee

September 19, 2011

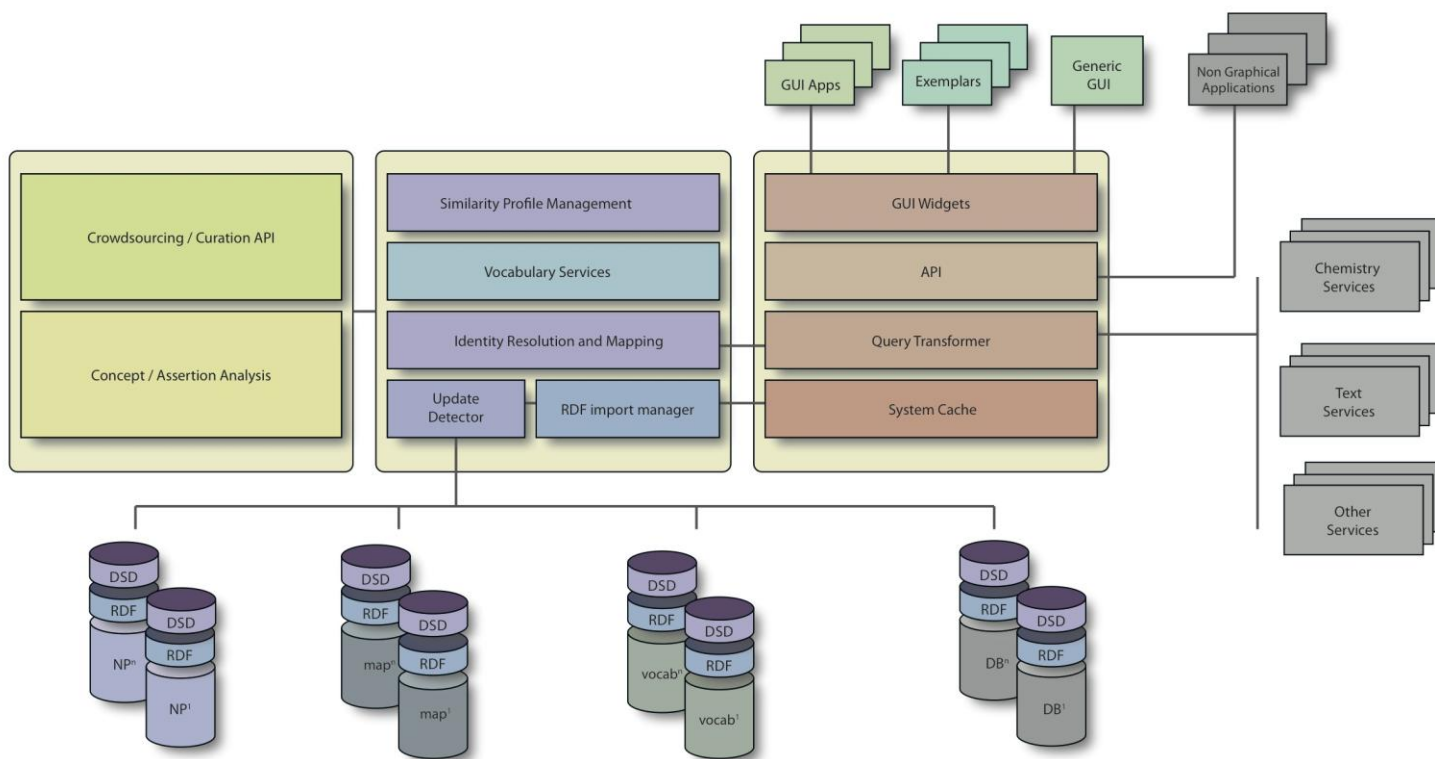

# Major Licensing Concerns

- Making the OPS system
  - Acquiring the data sources
  - Reusable software components
- Using the OPS system

# OPS Platform

# Data Sources

- Data providers have a range of licenses
  - Review licenses for fit with Open PHACTS
    - Redistribution of data
  - Discussions with providers on licensing data
    - Legal guidance

# Software: Building exemplars

- Incorporating reusable software components
  - Proposal : Each exemplar handles the licensing of specific third party software then provides a license for the exemplar to Open PHACTS
    - Attention to licenses that place downstream restrictions on derived software
    - Legal guidance

# Open PHACTS License Models

Need to accommodate both consumers  
and suppliers of data and software
