

Open PHACTS: An Industrial Researcher's Perspective

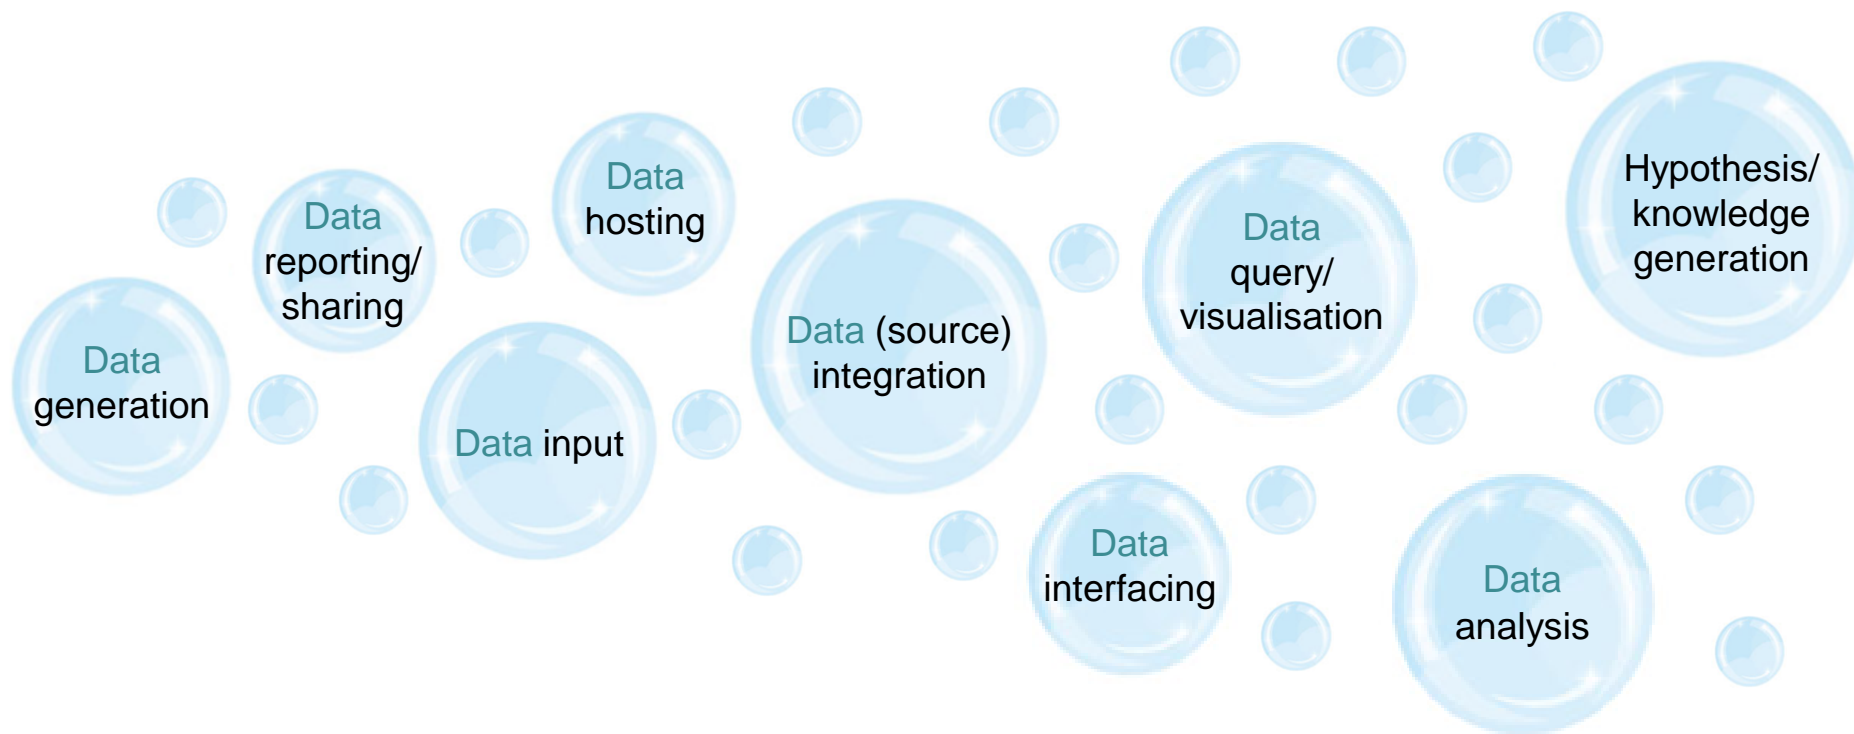

Stefan Senger

Using the Power of Open PHACTS

Open PHACTS 4th Community Workshop, London, 22-23 April 2013

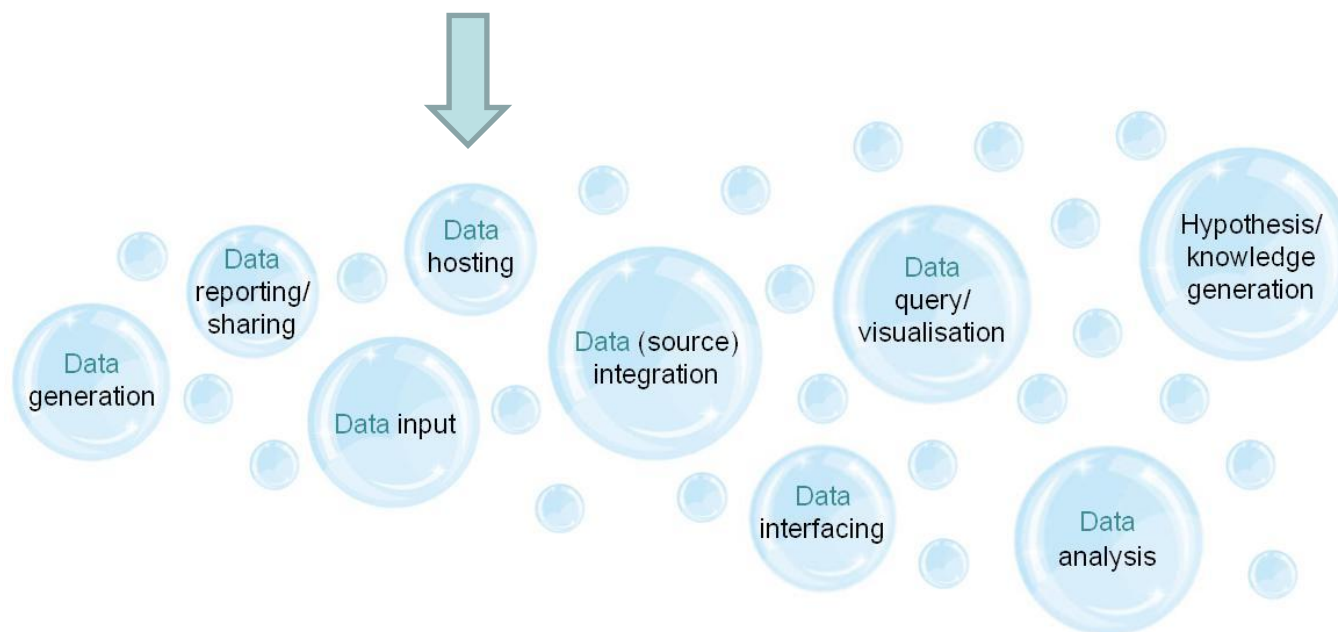

Turning data into knowledge...

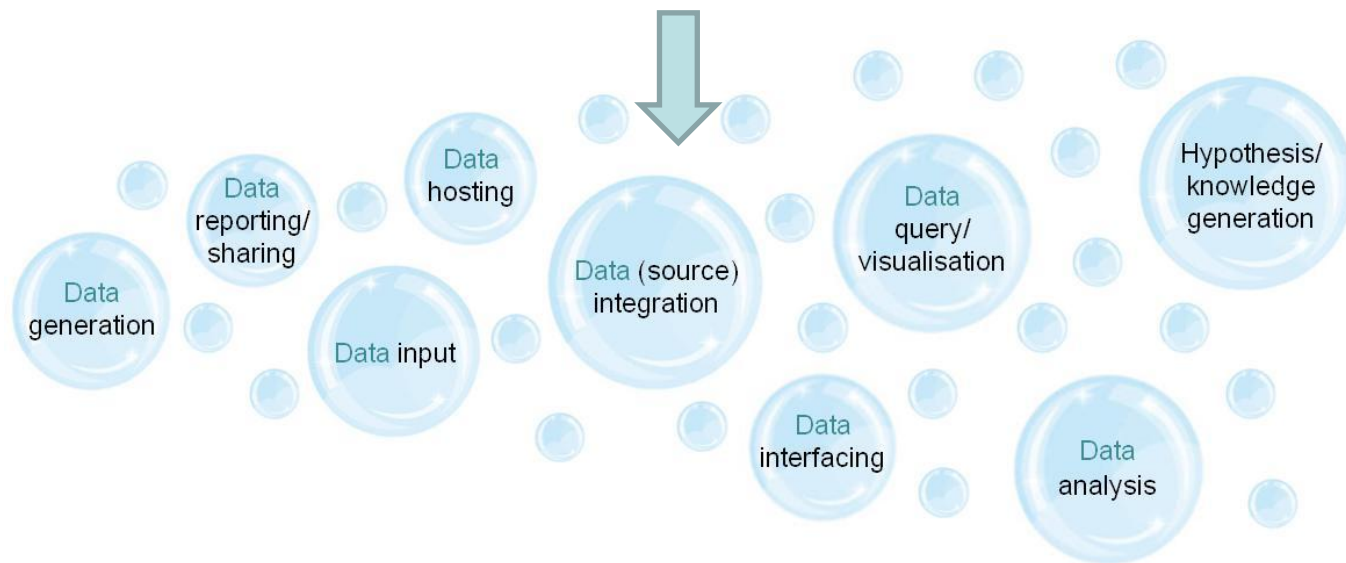

In an ideal world...

... hosting public data sources (behind the firewall) would not be necessary.

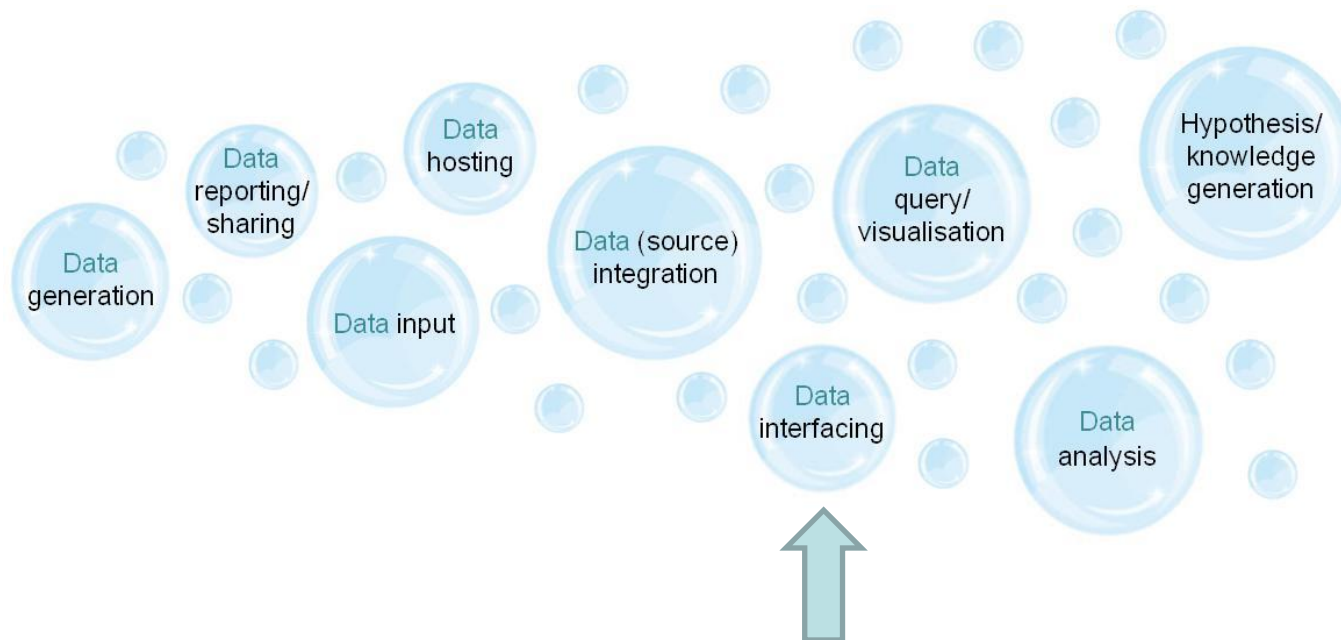

In an ideal world...

... data integration would be straightforward, not being replicated unnecessarily, cheap, and done by 'someone else'.

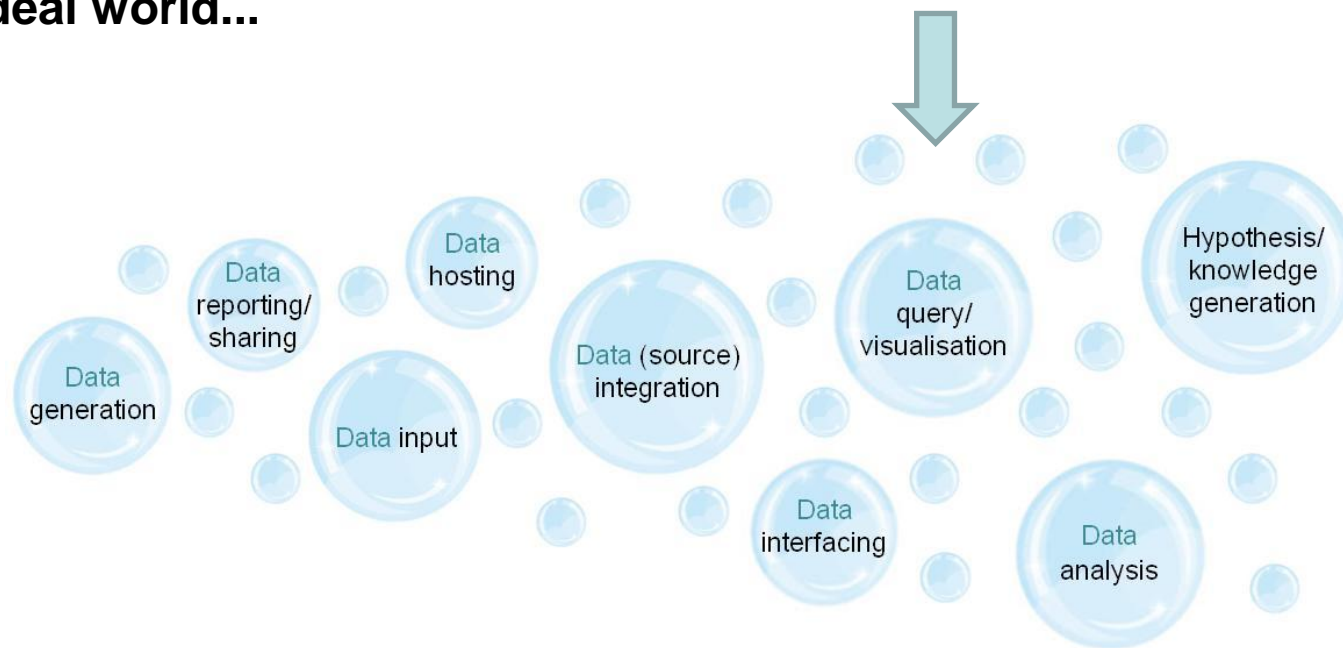

In an ideal world...

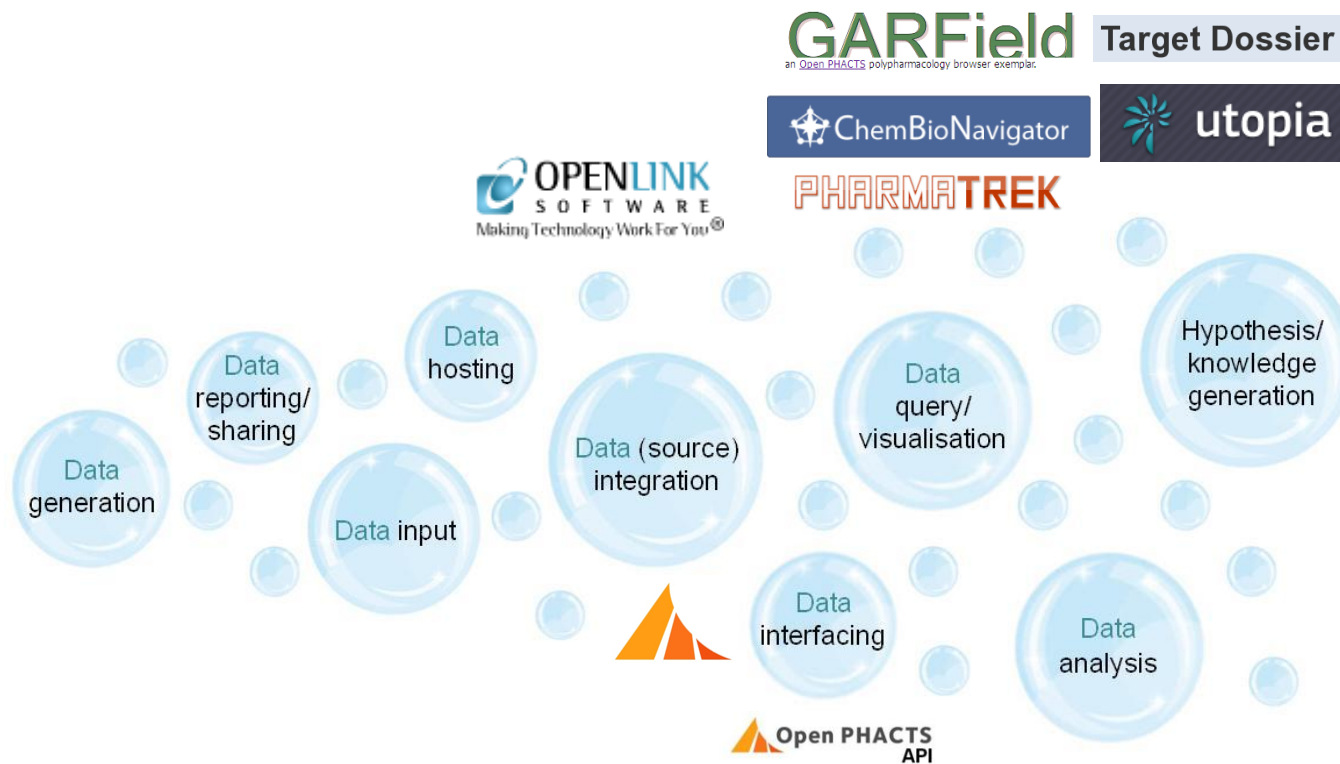

... access to the integrated data would be provided in an application-builder friendly way.

In an ideal world...

... there would be a versatile ecosystem of community-built/commercial end-user tools.

Open Pharmacological Space

Using the Power of Open PHACTS, London, 22-23 April 2013

enabling you to do what you do best.
